1 First Section

1.1 A Subsection Sample

Please note that the first paragraph of a section or subsection is not indented. The first paragraphs that follows a table, figure, equation etc. does not have an indent, either. Subsequent paragraphs, however, are indented.

Sample Heading (Third Level) Only two levels of headings should be numbered. Lower level headings remain unnumbered; they are formatted as run-in headings.

Sample Heading (Fourth Level) The contribution should contain no more than four levels of headings. Table ?? gives a summary of all heading levels.

Figures and tables Figure captions should be below the figures; table heads should appear above the tables. Insert figures and tables after they are cited in the text. Short captions are centered, while long ones are justified. Use the abbreviation Fig. 1, even at the beginning of a sentence.

Please try to avoid rasterized images for line-art diagrams and schemas. Whenever possible, use vector graphics instead (fig.eps).

1.2 Equations

Displayed equations are centered and set on a separate line.

$$ax + by = z \tag{1}$$

Table 1. Table captions should be placed above the tables.
